EDUCATION

Full Stack Web Development

Masai School
February 2023 - December 2023

Bachelor of Commerce

Pandit Deendayal University, Sikar
May 2020 - May 2023

TECHNICAL SKILLS

MongoDB | Express.js | Node.js |
React | JavaScript | CSS3 | HTML5 |
RESTful APIs | Chakra UI | Bootstrap |
Tailwind | Java | Firebase |
Responsive Web Design | Git |
Redux | Jira | Confluence | GCP |
Gemini-AI | Jenkins |
Jenkins Pipelines | Kubernetes |
PUB/SUB | Cloud Platform |
WordPress | Nestjs | Cluster | Lens |
Python | Redis | Postgresql |
Aws Cloud | Azure Services |
SAAS Platform | Microservices |
Llama | Google Generative-AI |
Aws SQS | AWS Lambda

SOFT SKILLS

Attention to Detail | Teamwork |
Adaptability | Time Management |

Yuvraj Jangir

Full Stack Web Developer

PROFESSIONAL SUMMARY

Results-oriented Full Stack Web Developer with expertise in the MERN stack. Collaborative team member experienced in designing and developing scalable web applications. Proficient in JavaScript, React.js, Node.js, and MongoDB. Diligent problem solver with attention to detail and a proactive, self-motivated attitude.

WORK EXPERIENCE

Xfinite Technologies

Backend Developer (Node.js)
April 2024-present

Job responsibilities:

- Collaborating with the development team to design, develop, and maintain web applications using Node & Express, React, and MongoDB.
- Participating in the full software development lifecycle, including requirement analysis, coding, testing, and deployment.
- Building efficient and reusable code for future use, ensuring scalability and performance.
- Working closely with cross-functional teams to ensure clear communication and successful project delivery.
- Continuously learning and staying up-to-date with emerging technologies and industry trends.
- Driving innovation by contributing to the development of a cutting-edge SaaS platform powered by AI.
- Focusing on integrating Generative AI and blockchain technologies into new and existing projects to create advanced, secure, and scalable solutions.

Masai School

Assessment Assistant
March 2024 - August 2024

Job responsibilities:

- Conducted comprehensive interviews to assess technical skills and readiness, providing insightful feedback to guide improvements.
- Worked collaboratively to develop and apply consistent evaluation criteria, ensuring fairness and uniformity in student assessments.
- Mentored students through the technical aspects of interviews, enhancing their ability to meet professional standards.

CERTIFICATIONS

Full Stack Web Development

Masai School

The Full Stack Web Development Certificate is a testament to mastery in both frontend and backend technologies, equipping individuals with the expertise to architect, develop, and deploy modern web applications. Through a rigorous curriculum blending theory with hands-on projects, recipients of this certificate demonstrate proficiency in a range of programming languages, frameworks, and tools essential for creating dynamic and responsive web solutions.

AA Program

Masai School

As a mentor, I conducted student interviews to assess their skills and provide constructive feedback. I guided them through technical and behavioral interview processes, helping them improve their performance and readiness for future opportunities.

- Provided personalized coaching and advice to boost students' confidence and technical interviewing proficiency.

PROJECTS

1. Logbook App

JavaScript | React | Redux | Node.js | Express.js | MongoDB

- Developed a web application using React, Redux, Node.js, and Express.js
- Implemented user authentication system for secure access to personalized logbooks
- Designed and optimized database models and queries using MongoDB

2. Bed Bath & Beyond

HTML5 | CSS3 | Responsive Web Design | JavaScript | BootStrap | Firebase

- Collaborated in the development of an online retail website using HTML5, CSS3, JavaScript, and Bootstrap
- Implemented wide product selection, deals and discounts, and customer reviews and ratings features
- Contributed to frontend and backend development, optimizing performance and ensuring smooth data exchange

3. TaxTim

JavaScript | React | Redux | Git | Firebase | ChakraUi | BootStrap

- Contributed to the development of an online tax filing platform using JavaScript, React, Redux, and Firebase
- Implemented a user-friendly interface, personalized tax assistance, and step-by-step guidance features
- Collaborated on backend development and integration with tax authorities' systems for electronic tax submission
